About Me

I am a highly motivated and passionate B.Tech student currently pursuing Computer Science and Engineering (CSE) at Rai University, with an expected graduation date in 2028.

I am the creator of CodeChisel, a coding learning platform that allows users to write, run code in an integrated editor. The platform also features interactive quizzes to enhance learning and reinforce coding skills.

I am eager to apply my skills in coding and development to real-world projects and work with teams to solve complex problems. I have a strong willingness to learn and continuously expand my knowledge in emerging technologies.

Projects :

1.Codechisel

CodeChisel is a modern coding education platform designed to bridge the gap between theoretical knowledge and practical coding skills
